The Power to Change Speaker Team

Our speaker team is made up of Australians just like you. They are husbands, wives, mums and dads from all walks of life and varying professions but united by a common passion - to encourage and equip you to build a strong, purpose-filled marriage.

The Power to Change A Day Together conference is presented by a combination of speaker couples with the husband and wife speaking together. They are a dynamic group of people able to laugh at themselves with presentations that people can relate to.
